Power BI Data Analysis Report | By Gazepidis Nikos

RETAIL SALES & PROFITABILITY PERFORMANCE

Comprehensive breakdown of global sales, geographic distribution, and product metrics.

2009-2011

23 Countries • **1446** Products • **20.3M** Revenue

Scope of Analysis

01. Performance & Geographic Analysis

- **Global KPIs**: Monitor overall sales, quantities, and profit margins
- **Market Evaluation**: Analyze performance and margins across key international markets.

02. Sales Dynamics & Seasonal Trends

- **Sales Trends**: Monitor Monthly Sales, Units Sold, and Average Order Value over time.
- **YoY Profit Growth**: Track Year-over-Year profitability and identify seasonal demand patterns.

03. Profitability & Product Breakdown

- **Cost vs. Revenue**: Analyze Total Cost versus Total Sales to determine Net Profitability.
- **Top Performers & Market Deep-Dive**: Focus on best-selling products and monthly profitability dynamics within key markets like the United Kingdom.

Analytical Process

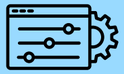

Data Collection

Downloaded and retrieved the open-source retail dataset from **Kaggle**.

Data Cleaning

Imported dataset into **Microsoft Excel** for cleaning. Standardized **Data types** and added custom columns.

Data Modeling

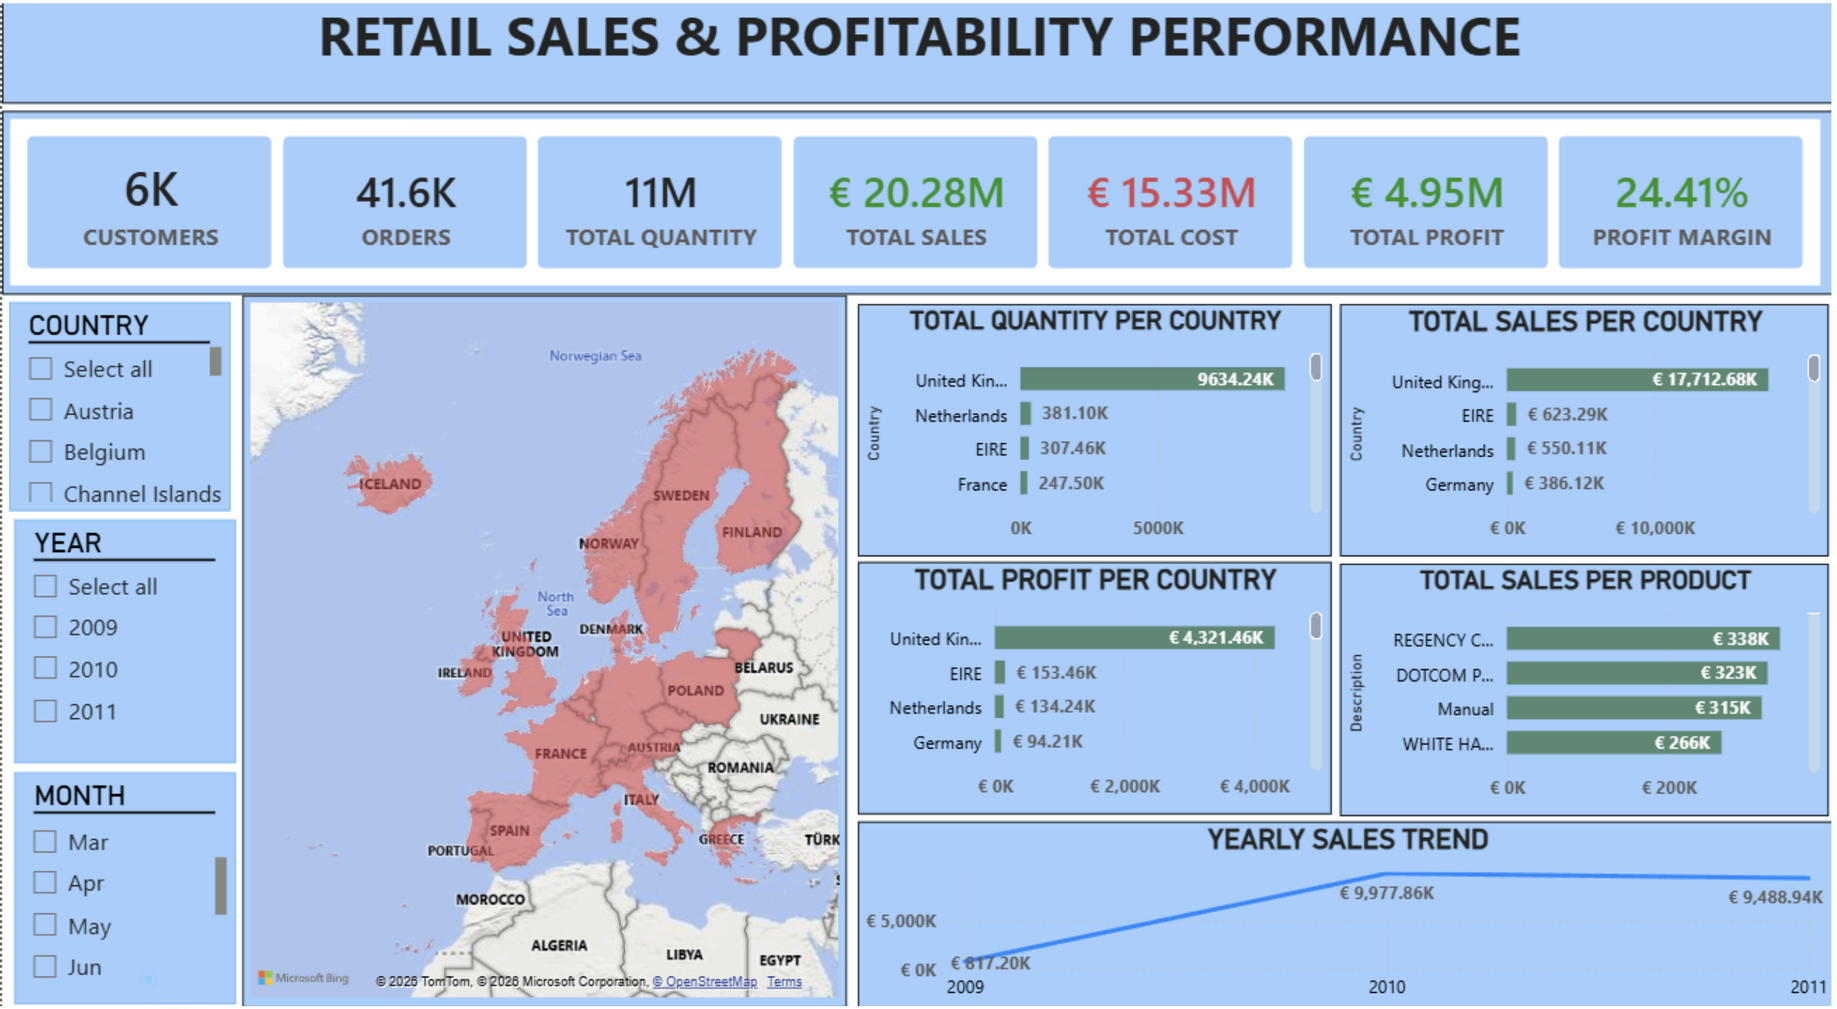

Built dedicated **Calendar Table** in Power BI. Created relationships and authored **DAX measures**.

Reporting

Designed interactive **Dashboard** with **Drill-through functionality** for country-level analysis.

Executive Dashboard Overview

Key Performance Metrics

Generated **€20.28M Total Sales** with **€4.95M Net Profit** across **6K Unique Customers**, achieving a healthy **24.41% Profit Margin**.

Geographic Market Dominance

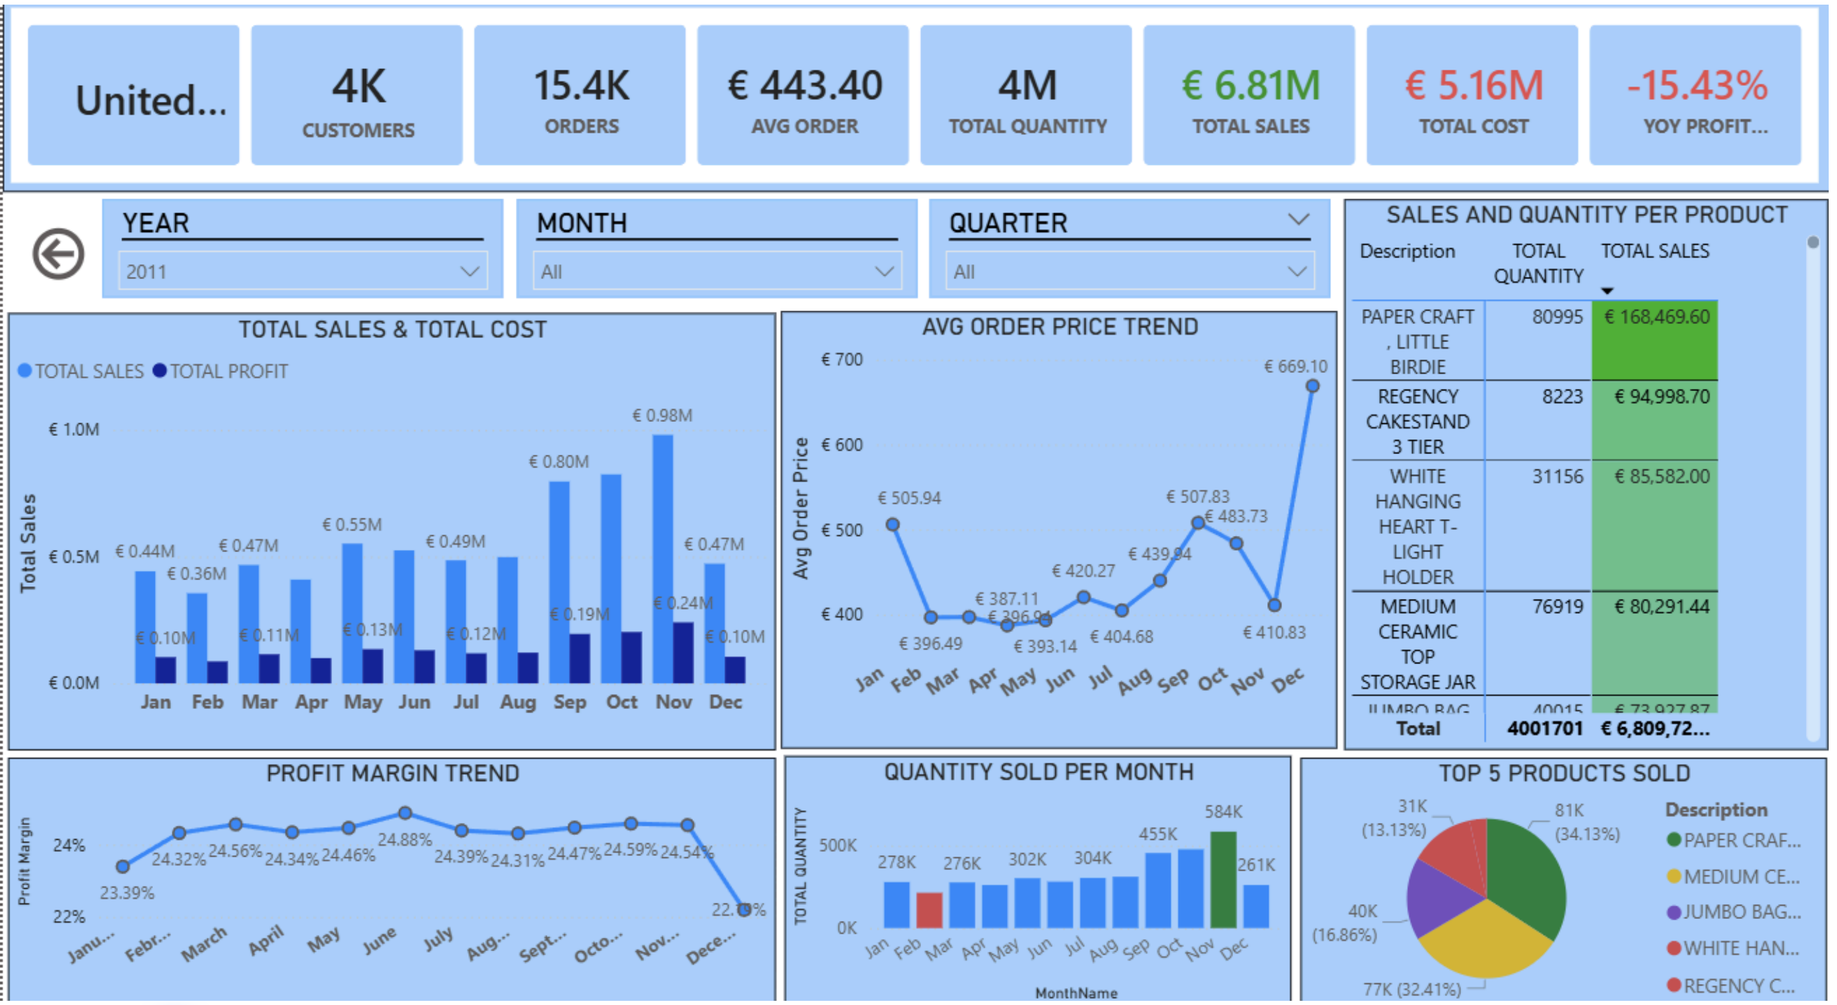

The **United Kingdom** leads significantly with **€17.71M** in **Total Sales**, followed by Netherlands (**€550K**) and EIRE (**€623K**).

Yearly Sales Growth

Exhibited strong upward **Revenue** momentum peaking at **€9.97M** in **2010** before stabilizing in 2011.

* 2009 Data includes December only.

United Kingdom Market Drill-Through

Key Performance Metrics

UK Market Performance (2011)

Generated **€6.81M Total Sales** with **€1.65M Net Profit** across **4K Unique Customers**, maintaining a stable **24.2% Profit Margin** despite a **-15.43% YoY Profit Growth**.

Top Product Drivers

Product Revenue Leaders

PAPER CRAFT, LITTLE BIRDIE dominated overall sales reaching **€168.5K** (**81K Units**), followed by **REGENCY CAKESTAND 3 TIER** at **€95.0K**.

Monthly Trends & Seasonality

Peak Demand & Order Trends

Sales peaked in **November** (**€0.98M Total Sales**) due to high volume (**584K Units**), while **Average Order Value** surged in **December** to **€669.10**.

Strategic Action Plan

Recommendations & Execution Roadmap

01. Top Priority: Global Strategy

- **Geographic Expansion**: Drive targeted growth in high-potential European markets, focusing on Netherlands and Ireland (EIRE).
- **Catalog Optimization**: Eliminate low-margin or slow-moving products to focus resources on top-sellers.
- **Pricing & Discount Control**: Establish a centralized discount policy to safeguard the overall profit margin (>24.5%).

02. Country-Specific Deep Dive: United Kingdom

- **Profit Margin Recovery**: Address the 2011 YoY profit decline (-15.43%) through supplier cost renegotiations and logistics optimization.
- **Seasonal Bundling**: Capitalize on the December 2011 Average Order Price surge (€669.10) with holiday product bundles.

03. Execution & Technical Roadmap

- **Customer Segmentation (RFM)**: Group the 6,000 customers into tiers for targeted loyalty programs.
- **Reporting & Alerts**: Automate Power BI alert notifications whenever the profit margin drops below 24%.

THANK YOU
